AUSTIN UNIVERSITY

INTERNATIONAL COLLABORATION WITH ALL INDIA RAIL SAFETY COUNCIL

Advancing Global Excellence in Rail and Metro Safety Education & Research

The All India Rail Safety Council (AIRSC) proudly announces its strategic international collaboration with Austin University, USA, marking a significant milestone in the field of rail and metro safety education, research, and global academic partnership.

This collaboration aims to strengthen technical education, safety training, and international research exchange in the domain of rail and metro operations, disaster management, and advanced transport safety systems. Both institutions share a common vision — to build a globally competent and safety-conscious workforce for the future of sustainable rail infrastructure.

Key Highlights of the Collaboration:

- Joint Research & Academic Programs on rail, metro, and transport safety.
- Student & Faculty Exchange Initiatives promoting international learning and innovation.
- Joint Certification and Training Modules recognized globally for safety professionals.
- Seminars, Webinars, and International Conferences co-organized on emerging safety technologies.
- Collaborative Projects focusing on AI, automation, and human factor safety management in rail transport.

Through this partnership, AIRSC and Austin University reaffirm their commitment to “Global Safety Through Knowledge and Collaboration.” This initiative will open new doors for Indian students, professionals, and researchers to access world-class expertise, global best practices, and advanced training opportunities in railway and metro safety.

About AIRSC

The All India Rail Safety Council (AIRSC) is an autonomous national organization dedicated to promoting rail and metro safety education, awareness, and training across India. With a strong focus on public safety, skill development, and academic excellence, AIRSC continues to lead the nation toward a safer and more secure rail ecosystem.

Together, AIRSC and Austin University move forward with a shared mission — to make global rail travel safer, smarter, and more sustainable.

Austin University is a government university in the state of Texas in the United States
