

IRIS for Rail (ISO 22163) Training Programme

Specialized 3-Day Training on International Railway Industry Standard (IRIS) as per ISO 22163 – Rail & Metro Sector

About the Programme

The **International Railway Industry Standard (IRIS)**, aligned with **ISO 22163**, is a globally recognized quality management system standard specifically designed for the rail and metro sector. This 3-day intensive training programme is tailored to provide participants with a comprehensive understanding of IRIS requirements, implementation strategies, and compliance frameworks that drive excellence in railway operations, engineering, and supply chain management.

This programme enables professionals to acquire the knowledge and tools necessary to meet international rail quality benchmarks, enhance operational reliability, and strengthen organizational competitiveness in the global railway industry.

Programme Highlights

- In-depth coverage of **ISO 22163 (IRIS) requirements** and structure.
- Understanding **quality management systems (QMS)** for the rail and metro sector.
- Practical insights on **process improvement, risk management, and compliance**.
- Case studies and real-world applications from rail and metro projects.
- Guidance on **audits, certification processes, and performance monitoring**.
- Exposure to international best practices for suppliers, OEMs, and operators.

Who Should Attend

This training programme is designed for:

- Employees working in the **railway and metro sectors**.
- Professionals from **industrial sectors** seeking knowledge in IRIS and ISO 22163 standards.
- Engineers and graduates with a **recognized engineering degree** aspiring to enter or excel in the rail industry.

- Managers, quality specialists, project leads, and consultants associated with rail projects.
-

Eligibility

- Employees from rail, metro, or industrial organizations.
 - **Engineering degree** from a recognized university (mandatory for technical participants).
-

Duration

- **3 Days (Intensive Training Programme)**
-

Key Benefits

- Gain expertise in **IRIS (ISO 22163)** implementation and certification readiness.
 - Strengthen skills in **railway quality management and compliance frameworks**.
 - Improve career opportunities in **railway, metro, and industrial quality systems**.
 - Hands-on learning with **industry-specific examples and practical tools**.
 - Certificate of completion validating professional knowledge in IRIS standards.
-

Certification

Participants will be awarded a **Certificate of Completion** upon successful completion of the training.

✂ **Take a step towards becoming an internationally certified rail professional!**

This programme is your gateway to mastering **IRIS (ISO 22163)** and excelling in the fast-evolving **rail and metro industry**.
