info@airsc.in

"Our vision is to establish a trusted leader in safety management through the development of technical staff excellence, establishing a high level of ethical practice, and collaborating with clients to meet their safety objectives. We value and respect integrity. professionalism, and commitment to safety."

The AIRSC ACADEMY OF SAFETY AND DISASTER MANAGEMENT aims to be an internationally renowned and respected institution, imparting excellent education and training founded on futuristic research and innovations. We inspire students to prepare for lifelong learning and leadership in an increasingly knowledge- and technology-driven world."

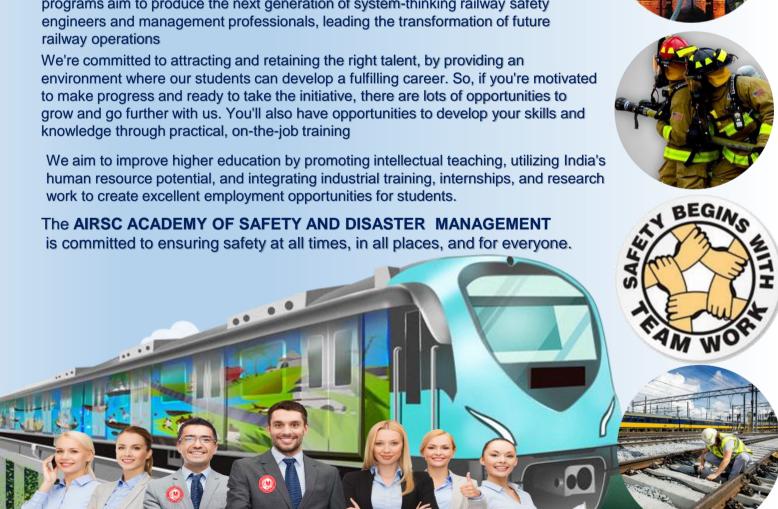

The Mission of the Academy.

Impart education in safety management and engineering, with a focus on addressing safety challenges and high-demand technology areas.

We seek to nurture students of extraordinary motivation and ability, preparing them for lifelong learning and leadership in an increasingly knowledge-driven world. We envisage establishing institutions of excellence in education, offering a competitive edge in research and real-time relevance through futuristic programs, activities, and projects.

The AIRSC Academy of Safety and Disaster Management primarily focuses on theoretical knowledge about safety, covering all types of accidents. Every safety professional should know how to act before accidents occur and understand preventive methods. Theoretical knowledge, first aid training, industrial visits, practicals, seminars, language skills, and presentations are essential. He/She should be keen observers with strong communication skills, safety-related general knowledge, and expertise in management, operations, and design. Experience in the safety field should be their first priority. They must understand the site or department's nature of work to effectively prevent accidents.

Our AIRSC Academy of Safety and Disaster Management programs are delivered by railway safety academics and industrialists, blending theory with practice. These programs aim to produce the next generation of system-thinking railway safety engineers and management professionals, leading the transformation of future

AIRSC ACADEMY OF SAFETY AND DISASTER MANAGEMENT is well supported by a team of professionals drawn from various departments.

Industry focused curriculum

Scholarship

Empowering aspiring students to become 100% employable.

Independent Placement Department

More and more Industrial visits and training First preference for practical class

Students get opportunities to work in Disasters

Live practical and demo Documentaries

At AIRSC ACADEMY OF SAFETY AND DISASTER MANAGEMENT, we have a very active Training and Placement Service Department, dedicated to providing appropriate jobs and suitable training for students who are about to complete their degrees and diplomas. Our department handles all aspects of direct placements for students, ensuring the best outcomes for them.

We at All India Rail Safety Council strongly believe in excellent placements for our AIRSC Academy of Safety and Disaster Management students.

Our placement service cell, managed by senior committee members at AIRSC, is focused on developing the placement services to their fullest extent. This ensures suitable jobs and training for students who are nearing the completion of their programs. The All India Rail Safety Council has made appropriate arrangements across various departments to facilitate these placements.
